

ABOUT EDGESOFT, INC.

Based in Culver City, CA, Edgesoft has been developing and delivering solutions to Local Government Community Development Departments for over 10 years.

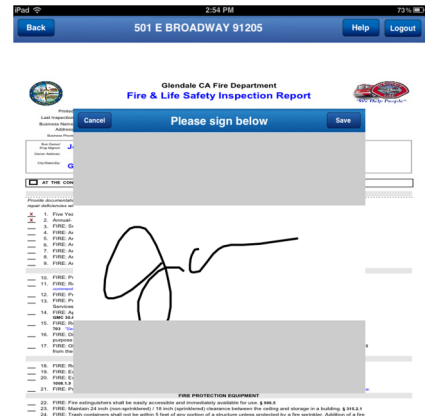

Edgesoft incorporates best-of-business practices with our all-encompassing, state-of-the art land management solutions.

Our core values result in lasting partnerships with our clients.

miFIRE™ - iPad Fire Department Inspections

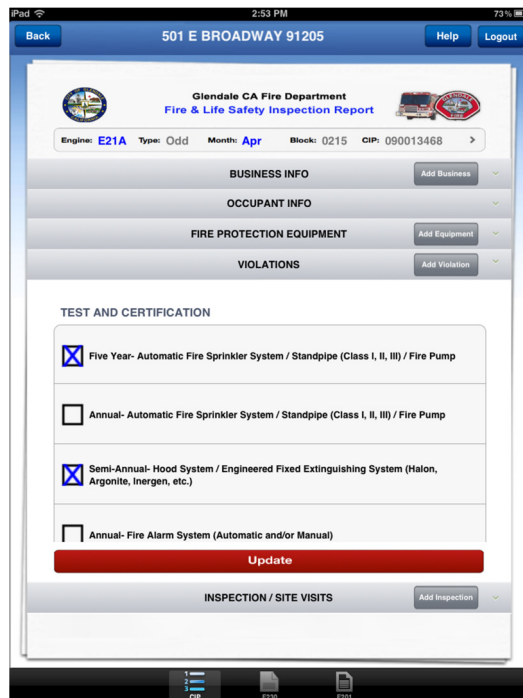

Fire Inspectors and Engine Companies can:

- SAVE TIME, SAVE MONEY - cut your inspection time by more than 50%
- Inspect ALL fire codes and building codes
- Bill for inspections or re-inspections
- Take pictures of violations, add comments, and look up and add uncommon codes
- Perform the entire inspection process without single piece of paper
- Complete inspections without an internet connection

And even:

- Add new occupancies on the fly and inspect them while in the field
- View your inspections on a map
- Generate the inspection report the spot and sign it with your finger!
- View all previous inspections for any occupancy
- Integrate with your existing RMS, or use our app stand alone

Edgesoft's inspection app for the iPad was developed side by side with fire prevention officers. The workflow of the app is FAST, SIMPLE, and PAPERLESS.

The iPad mobile inspection app from Edgesoft is unmatched in elegance and flexibility. No more paper forms, no more laborious data entry when you get back to the office.
